Additional Links for NEMO Consortium

NEMO Consortium members are encouraged to participate in the development of NEMO ontologies.

View

Ontologies may be downloaded or viewed in their [raw \(.owl\) format here](#). Alternatively, you may use the NCBO BioPortal tools to [browse or visualize the NEMO ontologies](#) (to visualize, follow the link and click on "Explore" for the most recent version). You may also use [Haishan Liu's Ont2SS tool](#) to generate a list of concepts (concept labels, URI), along with their definitions and other attributes.

Contribute

Requests for additions and changes to the NEMO ontologies can be accomplished by [submitting requests to the Tracker](#). To submit requests, you need a valid [SourceForge](#) account. Simply [sign up](#) for a SourceForge account and contact a [NEMO administrator](#) to have your account added to the project.

Discuss

Discussions take place on the [NEMO email discussion lists](#). Sign up for either the [nemo-consortium list](#), the [nemo-public list](#), or both. A valid email address is all that is needed.

Document

Members can contribute to the NEMO wiki (contact a [NEMO administrator](#) to get an account).
